

# Error Missing the following Connector properties: [lpsLabelFormatPath]

## Description

When attempting to verify a configuration within the Oracle Connector Console, you get the following error when attempting to verify the Connector configuration information, even though you have specified the path in the LPS Servers area.

Missing the following Connector properties: [lpsLabelFormatPath]

### Verify Connector Configuration Information

- Verify Configuration
- List Configuration

Go

### XML Test File

Browse...

Send

### Test Results

```
=====
Connector Configuration Verification
=====
Verify Connector Version..... 4.0.2.0
Verify Connector Java classes.. OK
Verify XDK..... OK
Verify Connector properties.... Verification Error:
    Missing the following Connector properties: [lpsLabelFormatPath]

** Connector configuration verification failed **
=====
Thread: Thread-76 complete
```

## Article Number

2013102

## Versions

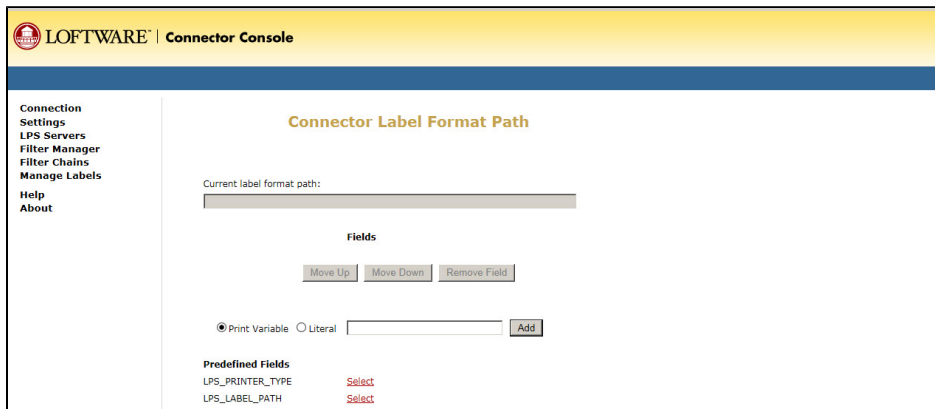

Oracle Connector 4.0.2

## Environment

All supported installation environments.

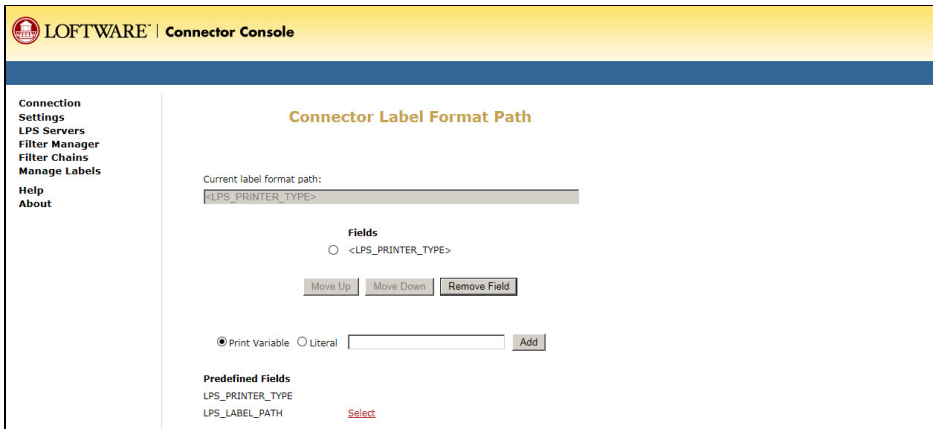

## Cause

Under Settings there is nothing specified in the **Current label format path**:

## Solution

Select either a print Variable or Literal and **Add** to the Current label format path, click **Done** and **Apply**.

Re-verify the Connector Configuration to make sure it is correct.

### Test Results

```

=====
Connector Configuration Verification
=====
Verify Connector Version..... 4.0.2.0
Verify Connector Java classes.. OK
Verify XDK..... OK
Verify Connector properties... OK

** Connector configuration verified **
=====
Thread: Thread-77 complete
  
```
